

Reuben “CJ” Onyekwelu

Sherwood, AR 72120 | (501) 786-2220 | cjonyekwelu23@gmail.com

Aspiring supply chain and operations consultant with experience in logistics, operations, and customer-facing problem-solving.

EDUCATION

University of Arkansas, Fayetteville —B.S.B.A: Supply Chain Management - Minor: Business Analytics

Expected Graduation: MAY 2027 | GPA 3.7

SELECTED EXPERIENCE

JB Hunt Transport Services, Lowell AR — CX Intern

May 2026 – August 2026

- Analyzed customer shipment and service data to identify trends affecting service
- Evaluated workflows for Burlington Coat Factory, Chevron, Ford, and Crate & Barrel
- Supported the customer experience team in investigating root causes impacting delivery performance for 10+ enterprise accounts
- Contributed to internal projects aimed at improving communication between enterprise accounts and account management teams.
- Delivered a final capstone restructuring our internal AI system that will allow for proactive visibility for account managers

Arcebest Corporation, Fayetteville, AR — Supply Chain Intern

December 2025 – May 2026

- Completed a rotational internship across Customer Solutions, Business Development, and Managed Solutions
- Supported day-to-day cross-functional projects focused on customer experience, operational efficiency, and data accuracy
- Analyzed operational and customer data to identify process improvement opportunities and support decision-making
- Collaborated with stakeholders across departments to address customer and operational needs
- Delivered a final capstone project proposing strategic AI implementation using API communications

Simmons Foods, Bridgeville, DE — Operations Intern

June 2025 – August 2025

- Designed a conveyor concept projected to reduce floor scrap by 23%, deriving the estimate by collecting and averaging floor scrap samples, weighing totals, and calculating savings across the floor's square footage
- Coordinated with production, maintenance, and quality teams to support daily plant operations and ensure workflow continuity
- Analyzed production residues and process bottlenecks to identify root causes and recommend operational improvements

Estes LTL Freight Shipping, Little Rock, AR — Dock Intern

May 2024 – August 2024

- Utilized eDock logistics software to track, locate, and reassign freight, improving dock organization
 - Attained an OSHA Forklift Certification
 - Evaluated loading patterns and lane assignments to support cost-efficient transportation decisions and reduce rework
 - Loaded trailers at an average rate of ~25 pallets/hour, supporting efficient freight turnover
-

LEADERSHIP ACTIVITIES
